

#	PRIORITY	
	Public Education, Law Enforcement, SAR & Outreach: the degree to which the project/program directly increases the number of registrations; i.e., enforcement strategy, registration events.	
	Law Enforcement, Search and Rescue: strictly law enforcement or Search and Rescue with no public outreach or registration enforcement strategy to increase registration numbers.	
	Trail Mapping: the degree to which the project/program will move public lands in Nevada towards having travel plans completed and will result in trail mapping and creation of maps for the public (With landowner/manager approval).	
	Access: the degree to which the project/program ensures protection of access, health and safety concerns or other mitigation necessary, which if NOT addressed, is likely to cause an opportunity or access to be lost.	
	Demand for New Facilities: to what degree does the application describe the demand for new facility development?	
	Connectivity: the degree to which the project/program would increase connectivity between other trails, facilities and other locations.	
	Environmental Studies and Conservation: the degree to which the environmental studies project is in a highly desired area that will result in maintaining or expanding OHV riding areas and including the consideration of trail features designed to be sustainable while protecting environmentally sensitive areas or important wildlife habitat area.	
	Existing Facilities: the degree to which the project maintains and/or rehabilitates Existing Facilities. "Taking care of what is already there to protect the investment".	
	Leveraging and Partnering: the degree to which the project/program leverages private, BLM, USFS, State, local government, and in-kind funding/services (considered as investment in the project). Coordination with stakeholders, partners and the public in which all interests have had an opportunity to be heard occurred	
	Economic Integration: the degree to which the project/program develops outdoor recreation opportunities that help local and/or regional economies grow (e.g., economic impact, additional OHV funding sources, improved user or business group participation).
