Irrelevant and unduly repetitive statements and personal attacks that antagonize or incite others are examples of public comments that may be reasonably limited. Followingly, public comments will only be received on matters relevant to the program's jurisdiction.

- Robyn Orloff, Carson City – Is looking for changes in NAC to strengthen stakeholder involvement, program funding, construction, and natural resources protection and accountability. She recommended a stakeholder reporting protocol for on the ground updates and violations on established projects. Robyn also asked for the $20 OHV registration fee to be increased to further Program funding.
- David Bentel, Carson City – Agreed with Orloff's public comment and voiced frustration around how they have been struggling living next to the Prison Hill OHV Area in Carson City. He stated that he has voiced issues through public comments as well as formal complaints, but nothing is done regarding these issues.

III. **REVIEW NAC Chapter 490**

REVIEW OF REGULATIONS UNDER THE AUTHORITY OF THE NEVADA OFF-HIGHWAY VEHICELS PROGRAM – Kaden Barmore, Program Manager gave a brief overview of Program Specific NAC including NAC 490 and Approved Regulation LCB File R122-20. The following public comment was received.

- John Glenn, Elko – Submitted a written public comment requesting that any recommendations be presented to the Commission on Off-Highway Vehicles at a public meeting before the December 31, 2026, Deadline. He also requested that the Program continue to accept requests from the OHV community on regulation changes.
- Robyn Orloff, Carson City – Reiterated that she would like to see the OHV registration fee increased to help fund the Program and projects, as well as establish a voluntary donation process. She voiced concerns that the Program is losing potential registration funding from street-legal offroad vehicles and recommended dual registration for these specific vehicles. Robyn would like to see NAC 490 modified to give the Program authority over landowners for projects that the Program has funded, for regulatory and compliance purposes. She reiterated a protocol for stakeholder engagement.
- David Bentel, Carson City – Reiterated frustration around working with the city regarding the Prison Hill project. He cited NAC 490.1455 which outlines the project completion but notes there is no NAC regarding maintenance or upkeep of projects spanning the 25-year requirement.
