

OFF-HIGHWAY VEHICLES GRANT PROGRAM

Application ID	Entity	County	Project Name
OHVGP1519	Carson City Sheriff's Office	Carson City County	Carson City Sheriff's Office- Honda OHVGP

1. Applicant Information

Organization Name:: Carson City Sheriff's Office

Contact Person: : Jim LaChew

Title: : Deputy

Mailing Address: : 911 E Musser St

City: : Carson City

State: : NV

9 Digit Zip Code: : 89701

Phone Number: : 775-450-6845

Email Address:: jlachew@carsoncity.gov

I understand that any funding awarded by the program may be terminated at anytime if the recipient fails to comply with program regulations, or the terms of a funding agreement. The applicant understands the program may upon notice to an award recipient terminate a funding award at anytime if funding becomes unavailable. : true

By submitting this grant application, I acknowledge that the Department of Conservation and Natural Resources may terminate grant funding for cause which may include grants that no longer effectuate program goals or agency priorities. : true

By submitting this grant application, I acknowledge that any current or future litigation brought against the State of Nevada or its political subdivisions may result in ineligibility for funding or termination of an active grant.: true

I have read and acknowledge the requirements stipulated in the program regulations available at: <https://ohv.nv.gov/grant-program>. As an applicant my organization will be able to meet program requirements. : true

2. Organization Type (Select Only One)

Please describe your organization: The Carson City Sheriff's Office is the primary law enforcement entity for the city/ county of Carson City, NV. The Carson City Sheriff's Office patrol division operates an OHV program though the Traffic/Motor Unit.

3. Applicant History

Has the applicant previously received Nevada OHV Grant Program Funding? : true

Does the applicant currently have open grants from the Nevada OHV Program? : false

Number of projects funded:: 2

Number of projects completed:: 2

Amount of OHV funding received to date:: 138652

4. Project Information

Project Name:: Carson City Sheriff's Office- Honda OHVGP

Studies or planning for trails and facilities: false

Mapping and signage: false

Acquisition of land for OHV trails and facilities: false

Enhancement, maintenance, or both of OHV trails and facilities : false

Construction of OHV trails or facilities: false

Restoration of areas damaged by OHVs: false

Construction of trail features to minimize impacts on environmentally sensitive areas or important wildlife habitats : false

OHV safety training and safety education: true

OHV and NRS 490 compliance and enforcement: true

OHV grant request:: 49763

Total match provided:: 16508

Please describe match sources, partnerships, and type:: The Carson City Sheriff's Office will provide additional funds for overtime with enforcement, safety classes and presentations, VIN inspections and OHV registration drives. Deputies will continue to dedicate time planning and attending OHV events, promoting the OHV program and administering and management of the grant. Carson City Sheriff's Office Traffic Unit Deputies will be a part of this program and will be used for education events, patrol activities and community interaction as well.

Please list all user group(s) able to utilize this project:: Single Track Motorcycles, ATV/Quads, UTV/Side by Side

If applicable, please explain how this project will aid with managing user interactions:: Through partnerships with the Bureau of Land Management, local OHV groups, OHV dealerships and educational events; we instruct and educate all participants to share trails, follow local and state laws and guidelines, report

illegal activities and understand that through cooperative use OHV areas will continue to thrive and benefit all.

5. Scope of Work and Deliverables

Scope of work description:: With this year's grant we plan to continue to expand our scope and continue to create new partnerships with users and the community to curb illegal activities in the off road areas within Carson City's jurisdiction. There has been an increase of OHV usage intercity within our jurisdiction. The addition of these new motorcycles will better equip motor officers to handle day to day OHV interactions and calls for service regarding OHV's, as well as extended patrols in the OHV areas. We will continue to expand our involvement with educational weekend events including safety training and discussions and working with other groups to promote safe, responsible use of our off road areas. We will continue to have our OHV unit attend venues such as the Nevada Day Parade and other State and Community events, State Fair, our own Carson City Sheriff's Office "Cops and Kids" event, Sheriff's Night Out and our Annual Extreme Motor Officer Training Challenge with specific focus on education of OHV users to register their Off Highway Vehicles and use off road areas responsibly. We will expand our attendance at school events and any other events where we can talk about off-road safety and proper use of our off-road areas. Our venue set-up will continue to include our 10x10 canopy, a minimum of 2 officers, off-road display and more handouts that promote safe and responsible off-road use. We will continue to use our venue to promote OHV registration drives. The two new requested motorcycles will be assigned to experienced motor officers to be deployed on a regular basis. All OHV's are stored in a department owned and secured storage shed. Our current and future display items, handouts and booth equipment will continue to be stored in the OHV storage shed. Registration, insurance and maintenance will continue to be the responsibility of the Carson City Sheriff's Office.

Project deliverables description:: The goal of this project is to promote safe and ethical usage of OHV designated areas. The Carson City Sheriff's Office will be active in contacting OHV users, provide education and enforce applicable laws when warranted. We will continue to have our OHV unit attend venues such as the Nevada Day Parade and other State and Community events, our own Carson City Sheriff's Office "Cops and Kids" event, National Night Out and our Annual Extreme Motor Officer Training Challenge with specific focus on education of OHV users to register their Off Highway Vehicles and use off road areas responsibly. Event data will be collected such as, number of approximate people at event, OHV calls for service, individuals contacted, hours of regular worked time, OT time and any enforcement conducted.

6. Commission Priorities

Law Enforcement Strategy:: The Carson City Sheriffs Office started a regiment of monthly events at popular off-roading areas. These events focused on OHV registration by educating the off road community on the benefits and state requirements. We were successful in getting information out to the OHV community regarding registration requirements and safe use of OHV areas. By conducting patrols in the off road areas we were able to contact users, provide information and work with state agencies to increase local OHV registrations and provide information for safe responsible use of OHV areas. We have used social media to provide public service announcements of our activities in the off-road areas. We will continue to focus on checking for registration and conducting VIN checks. We have educated ourselves on Nevada Revised Statue 490 and we will continue to work with the OHV commission to create or adopt new regulations to better serve the OHV community. The Carson City Sheriff's Office OHV program will continue to educate the off road community regarding off road vehicle registration and state laws regarding OHV use. We will continue to maintain a presence with an educational booth at future county events, such as Nevada Day, Fuji Park dirt bike races, Cops and Kids and Sheriffs Night out events. In order to reach more users, and with agency approval, attending nearby (out of county) events with our educational booth and information such as The Virginia City Grand Prix and other Northern Nevada racing events including MRANN (Motorcycle Racers Association of Northern Nevada) off road series, and Vegas to Reno Off-Road race. We will attend events with other OHV grant recipients such as registration drives and educational events that specifically train and educate off road users. The Carson City Sheriffs Office started our own off-road program by implementing two dual sport KTM motorcycles into the traffic/ motorcycle unit in 2013. We have since added 4 additional off-road motorcycles

with the partnership of the NV OHV grant program. We plan on adding two new off road capable motorcycles to better serve the OHV community with patrols and OHV interaction.

Planning, Environmental Studies, and Conservation:: Carson City Nevada has trails that number way into the thousands county wide. We continue our efforts to reach users that have not been reached in the past. We have been able to start an educational culture and coordinate with other groups to maintain this culture. Our continued goal will be to grow public use and responsible use for future generations to enjoy these areas.

Enhancement or Maintenance of Existing Trails and Facilities:: Carson City has committed itself to improving current off road areas such as Prison Hill OHV recreational area and working with government agencies to maintain OHV access sites. The Carson City Sheriff's Office OHV program will continue to work alongside Carson City and State agencies to improve and maintain current OHV access and recreation locations. Carson City Sheriff's Office personnel involved in the program are lifelong dedicated off-road enthusiasts and are continually building relationships and working with other organizations and groups to improve the local off road community, from education to awareness.

Training Strategy:: The Carson City Sheriff's Office has developed our own 80 hour off-road riding course that is recognized by Nevada State Peace Officer Standards and Training, (Nevada POST). We are also developing a Nevada POST recognized Side by Side training course. During this 2026 grant cycle we are seeking funds to send Deputies to Off-Road riding schools in an effort to bring more information back to our own program. Carson City Sheriffs Office currently uses the Rich Oliver Mystery School for outside agency training of Deputies. We will seek to send officers involved in the program to off road riding and ATV trainer schools to bring more information to the off road community. We will continue to seek to grow our program at every opportunity.

Connectivity and Loops:: Carson City OHV areas run into areas that include other jurisdictions. This program will allow us to work with other grant users, organizations and groups to help connect access sites into these areas, maintain our areas and with future plans help connect users from area to area with mapping that would include easily accessed roads and trails, specific for this purpose. By educating users on these loops and connections the goal will be to keep users from getting lost or stranded.

Access:: By educating and working with local groups and users we will continue to maintain current access to off road areas, without education and proper use, the reality of illegal use grows. Current access issues involve local homeowners that live near legal OHV access sites. A strong education campaign aimed at homeowners and business owners, targeting their concerns will help to address common complaints and head off future issues that may lead to closures at certain access areas.

Trail Mapping and Signage:: We currently use existing off road trails and roads. Future efforts will include mapping and trail maintenance. Proper and ethical use of off road areas will be discussed during training events and educational presentations. We plan on adding an OHV section to the CCSO Traffic unit's section of the department website with links to Nevada OHV website and social media to continue to help the community with information and education.

Partners and Leverage:: The Carson City Sheriffs Office continues to have a strong working relationship with our business community. Specifically, our current relationships with our dirt bike shops and off road businesses continue to be equally as strong. Many of our employees are avid off road users and enthusiasts. We have developed excellent relationships and maintained these relationships over the years and we continue to work with these businesses for promoting safe and ethical use of public lands. We have received excellent feedback from the off-road community since implementing our off-road plan and by interacting with the OHV community. We will continue to grow these relationships and seek out new ones with others involved in the OHV adventure in the future. Carson City Sheriffs Office takes pride in working with the citizens in the community to promote quality of life for all of the community members. This program will be no different, by working with users and concerned non users we will endeavor to address all concerns from the community and work to promote responsible off highway vehicle use in our OHV areas.

Economic Integration:: OHV areas in Carson City offer incredible views and adventure for OHV users. OHV users travel from all over the west coast to ride and drive in our off road areas for many reasons including, ease of use, safer use locations and generally fewer users as compared to other states. By maintaining these areas and using enforcement and educational opportunities we will be able to insure the proper and safe use of our off road areas. Local businesses prosper with increased tourism. Ease of use naturally transfers to more tax dollars generated and grows our area. With more prosperity and more users, requirements for enforcement and education become more paramount.

New Facilities:: N/A

7. Project Location

Nearest town/city/municipality to project (list multiple if applicable) :: Carson City

County(s):: Carson City

8. Land Management and Environmental Compliance

Landowner(s): City County of Carson City

RE: Carson City Sheriff's Office - Honda OHVGP

Dear Commissioners:

The above stated off-highway project has my approval as of 6/4/2026. I have read the Request for Grant Application package and attachments, I agree with the application and the terms of the grant.

The project is located on Open Space properties, owned by Carson City and managed through its Parks, Recreation and Open Space Department. It is in conformance with the appropriate land management permits, licenses, clearances, and Federal environmental analysis documentation necessary to comply with local, state, and federal laws, specifically NRS 490.069. The project parcels include the Prison Hill Recreation Area and Carson City owned parcels in the areas of Ash Canyon, Carson River Canyon, Goni Canyon, Voltaire Canyon, and Sand Canyon. I understand that this project is limited to educational activities and patrols on existing roads and trails to serve the public.

As Director of the Carson City Parks, Recreation & Open Space Department, the proposed project on the subject lands under the Department's purview, is sufficient in scope and authority to allow the applicant to complete the proposed project. We sincerely appreciate our cooperative relationship with the Carson City Sheriff's Office and our collective dedication to educating the public and provide safe places for outdoor recreation opportunities in our capital city.

Thank you for your time and consideration. If you have any questions or concerns, please contact me at 775-283-7345 or by email at jbudge@carsoncity.gov.

Sincerely,

Jennifer Budge, CPRP, Director
