Logandale trails are a moderately used OHV trail system, primary users are ATV, SxS/UTV and some Full sided 4X4, in both trail and rock crawler, manual use by the other categories listed. This adopt-a-trail creates is no conflict with any of the other recreational disciplines. It does encourage other users to take an active stewardship posture while recreating the trails.

- 13. Scope of Work:** Please describe *exactly* what work will be completed. Programs, planning, NEPA, surveys, mapping, include miles of trail, trail type and other quantitative goals including a timeline for completing the work. NAC 490.1375. If purchase of equipment is included, please explain where/how it will be housed and maintained. (In order to avoid duplication, **do not include** justification or narrative in this section; refer to Section V, Scoring Narrative).

Establish a cooperative agreement between VVFW/VV4W and BLM LVFO, to provide an overt stewardship presence, conduct annual projects in partnership and approved by LVFO, to replace broken or missing waymarks, update kiosks, litter and debris removal, and other tasks assigned/coordinated through LVFO. BLM is anticipating publication of a travel management plan during the timeframe of this request. At that time VVFW will assist in trail marking new inventoried trails. Extending outreach and education about the Logandale Trails System to the surrounding areas.

14. Standards/Guidelines that will be applied to your project:

SECTION V – PRIORITIES AND SCORING NARRATIVE

Grants will be scored based on answers to the Ten (10) criteria listed below. Each criteria carries a weight determined by the OHV Commission, voted upon during the public meeting on 9/7/2021. Please reference scoring criteria form.

1. **Law Enforcement Strategy that addresses registration enforcement, including Public Education & Outreach aimed at increasing renewals and new registrations:** This project offers an overt presence of stewardship and maintenance on the Logandale trails.
2. **Enhancement or Maintenance of existing trails and facilities:** VV4W is seeking to take on the stewardship role established by Partners in Conservation (PIC) , a group that has added significant value to the trails previously the PIC has disbanded in all but name and we hope to continue their excellent work. With BLM working to publish the Travel Management Plan (TMP) it is though our volunteers, we will be able to provide a workforce to install new waymarks as directed by BLM, prior to that point we seek to remove/repair/replace existing waymarks in the current inventory. Additionally, we have recently assisted BLM in repairing a segment of the paved access hill a road that needs to be mantled by hand to allow full access in the trail system.
3. **Training:** Training will be limited to promoting the stewardship principles in the tread lightly messaging.
4. **Trail mapping and signing of existing trails and facilities:** Mapping and inventory for user trails and incorporating them to the BLM inventory will be completed by the LVFPO VVFW will assist as requested by BLM, to ensure quality trails are included, and user generated low quality trails are excluded With BLM working to publish the travel management plan it is though our volunteers, we will be able to provide a workforce to install new waymarks as directed by BLM, prior to that point we seek to remove/repair/replace existing waymarks in the current inventory. Trails that are not to be included in new TMP, VVFW will work with BLM to decommission/reclaim those trails to their natural state.
5. **Connectivity/Loops:** Logandale is the largest specifically managed OHV rec area in the eastern section of Clark County, the trails are accessed locally as well as allowing for access to the system of tails along Mormon Mesa to the East and following the Virgin River and eventually ties into the city of Mesquite a Nevada "OHV Friendly Community"
6. **Planning, Environmental Studies, Conservation:** While some of the work in this request will be completed after BLM publishes a TMP, the existing stewardship activity is needed currently. The in-kind accounting by post TMP, is in this application,
7. **Access:** Access and riding experience will be improved with this project, with refreshed or new signage throughout the system initially replacing existing and adding new signs as well. Location and directional signs form the valley are missing damaged and weathered not allowing for a clear set of direction on how to get to staging.
8. **Partnering and Leverage:** we are being assisted by the Nevada Offroad Association, Tread Lightly, and members of the VVFW club. We also have substantial involvement and partnership with the Local Fire Department,
9. **Economic Integration:** Logandale trails are underutilized by Nevada visitors and the primarily riders are Clark County residents. It is our expectation by allowing for continual improvement of the system, this will make the trail system even more desirable for out of state visitors

Re: Logandale Trails Adopt A Trail/ Stewardship

Dear Commissioners:

The above stated project has the support of the Bureau of Land Management (BLM) Las Vegas Field Office, as of November 15, 2021. The location for the proposed project is within lands managed by the BLM. If approved, the grant would allow Vegas Valley Four Wheelers to provide a stewardship presence and conduct projects consistent with the final Logandale Trails Recreation Area Management Plan that are approved by BLM. The projects would include, replacing broken or missing trail markers, updating kiosks, litter and debris removal, and other tasks coordinated through the BLM, Las Vegas Field Office.

The proposed project is consistent with land use allocations described in the approved Las Vegas Resource Management Plan (1998) and in compliance with applicable federal, state, and local laws and regulations. The project will be reviewed for potential environmental impacts and if necessary, BLM will provide the appropriate National Environmental Policy Act (NEPA) documents, as required by the NEPA.

We have reviewed the grant application and, if approved, will comply with those terms that are applicable to the BLM. If you have any questions or concerns, please contact Kenny Kendrick, Supervisory Resource Management Specialist, at (702) 515-5073 or kkendrick@blm.gov.

RE: Vegas Valley 4 Wheelers Nevada OHV Grant Application

To whom it may concern,

Since 2009, Vegas Valley 4 Wheelers has hosted a popular event in Moapa Valley called Hump n Bump. This group not only comes out to the Logandale Trails to recreate, they have taken a step beyond that and has become the primary steward of the area. I have lived in the area since 2005 and had previously worked for the Bureau of Land Management (BLM) as a Law Enforcement Ranger. I have never seen a group be so active and involved in taking care of our public lands like Logandale Trails, then I have from the Vegas Valley 4 Wheelers Group.

As the Fire Chief for the Moapa Valley Fire District, I fully support the desires of the Vegas Valley 4 Wheelers to take an active part to continue to improve the Logandale Trails System. I believe that they have the leadership and the know how to make the Logandale Trails a destination for off roaders from Nevada and from around the world.

From my experience as a prior BLM Ranger responsible for patrolling Logandale Trails and as the Fire Chief, It is imperative that we install better signage. By doing so, this will decrease the calls we have at the Logandale Trails System for lost or stranded riders and for accidents.

I fully support Vegas Valley 4 Wheelers desire to improve and protecting the natural landscape of the Logandale Trails System.

Respectfully,

Stephen Neel

Subject: Vegas Valley Four Wheelers

The Nevada Offroad Association (NVORA) supports the grant application submitted by the team at Vegas Valley Four Wheelers (VFW).

NVORA staff had the opportunity to meet with leadership of the VFW and drive some of the trails in the Logandale Trails System (LTS).

We were glad to learn that the Bureau of Land Management (BLM) was on the cusp of finalizing their Recreational Management Plan for the area. With the retirement of the previous stewards of the LTS, Partners in Conservation, the VFW's proposal is an ideal opportunity to engage and support a new steward for this Nevada destination combined use recreation area.

The partnership between VFW and the BLM, as the required planning documents are published, queue up the membership of VFW to step in and install trail signage under the direction of, and in cooperation with the BLM. NVORA is proud to support this partnership because it is actions like this adopt-a-trail stewardship that affords quality riding experiences for visitors to our Nevada communities and their local businesses.

Through the efforts of clubs like the VFW, Nevada will create a valuable and genuine force multiplier to aide our federal agencies tasked with managing vast amounts of Nevada's Public Lands.
