Know where it's to go?

OHV use has increased dramatically over the years, involving riders of all ages and abilities. More riders means more trail use and more dust. This means more impact on our lands, community, and health overall.

Many agencies in Clark County design and manage roads and trails for OHV use, such as four-wheel drives (4x4s), all-terrain vehicles (ATVs), dune buggies, motorbikes and snowmobiles. Each agency has different rules and regulations when it comes to these roads and trails and the types of vehicles permitted. The map inside can help you plan your adventure.

It's up to you to protect public lands while you enjoy them.

Hundreds of miles of roads and trails in Clark County provide a variety of riding experiences. Explore the best of Nevada, from the desert floor to mountain heights, with spectacular scenery along the way. Choose a route that provides technical challenge and opportunity to test your skills – or open it up and ride hard and fast in wide-open terrain.

TIPS

Why Not Ride Everywhere?

Safe and Responsible Riding

OHV riders must comply with state and federal laws and regulations governing motorized vehicle use on public lands.

All OHVs must have a muffler and spark arrester. Working headlights and taillights are required for nighttime operation.

Obey all posted speed limits. If speed limit is not posted, drive in a manner that is reasonable and prudent for the current road conditions.

Make sure someone knows where you are and when you are to return.

For emergencies, call 9-1-1 or Lake Mead Interagency Dispatch at 1-800-680-5851.

Dust Control

The Las Vegas Valley has trouble with dust pollution, which poses a hazard to our health. Controlling the amount of dust kicked up by off-road vehicles, construction, and other sources contributes to healthier communities.

Vast Areas - Varying Rules

Las Vegas Valley residents have access to an astonishing amount of public lands — some 11,000 square miles! Different agencies design and manage roads and trails for OHV use. Each agency has different rules and regulations when it comes to these roads and trails.
